

Internet in Slovenian schools

Ivan Kolenko -Poslovno-komercialna šola Celje
Krešimir Tomas – Gimnazija Novo mesto

Agenda

- Connectivity in schools, why and how?
- Which services are available?
- What support we need?
- Is network connection fast enough?
- Difficulties and problems?
- Some practical examples
- Questions and debate

Connectivity in schools, why and how?

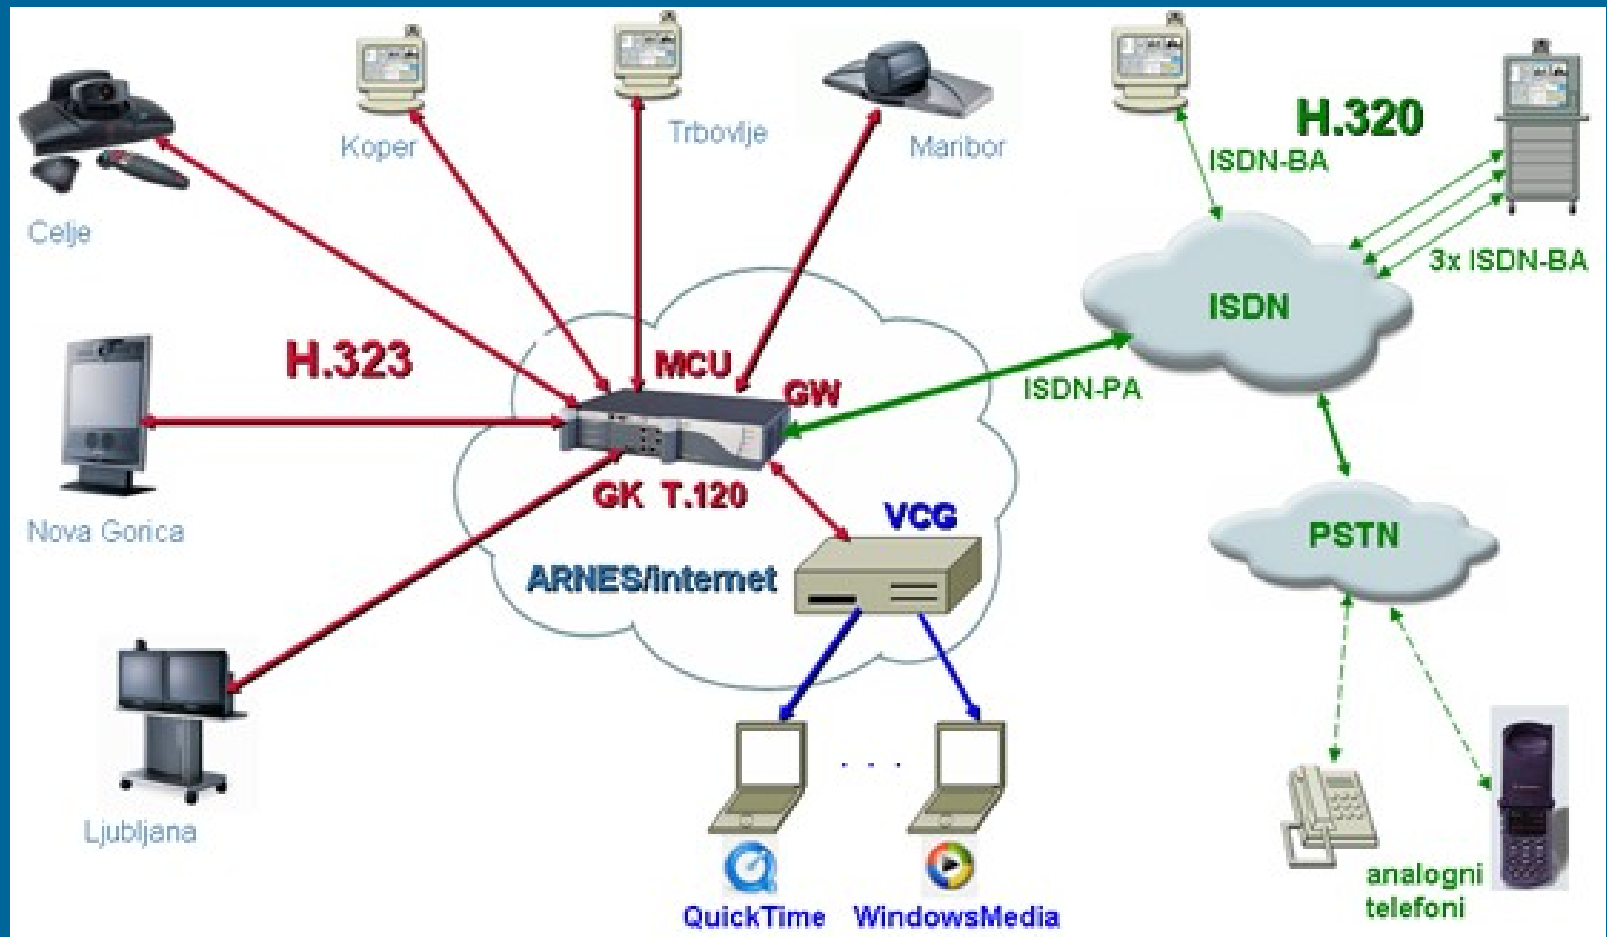

- New methods of teaching
 - (computer aided, multimedia,...)
- Improving lessons
 - Online content
- Connecting in different projects (iEarn, Kidlink, Eu-Schoolnet,..)
- E-learning / Educational portals
 - Slovenian Educational Network SIO
 - European – Calibrate

Which services are available?

- Internet web pages servers
- Mail
- Videoconferencies
- E-portal servers

.....

Videoconferencijes

What support we need?

- Connectivity help (routers, traffic filtering, ...)
- QOS – videoconferencing
- Using MCU and streaming servers
- Preventing hacking, SICERT,..
- ...

Is network connection fast enough?

- Optical connection
 - optical loop – Arnes
 - Telekom
 - Schools property
- ADSL connection - Telekom
- ISDN connection - Telekom

Difficulties and problems?

- Unexpected use of internet (huge downloads, play games,..)
- Preventing of hacking
- Education instead of prohibition

Question and debate
