# TF-MEDIA

## Task Force on Media Management and Distribution

Brings together European NRENs, universities, librarians and other academic content owners to explore the architectures, technologies and workflow processes necessary for various rich media content production management, and distribution, for the research and education community.

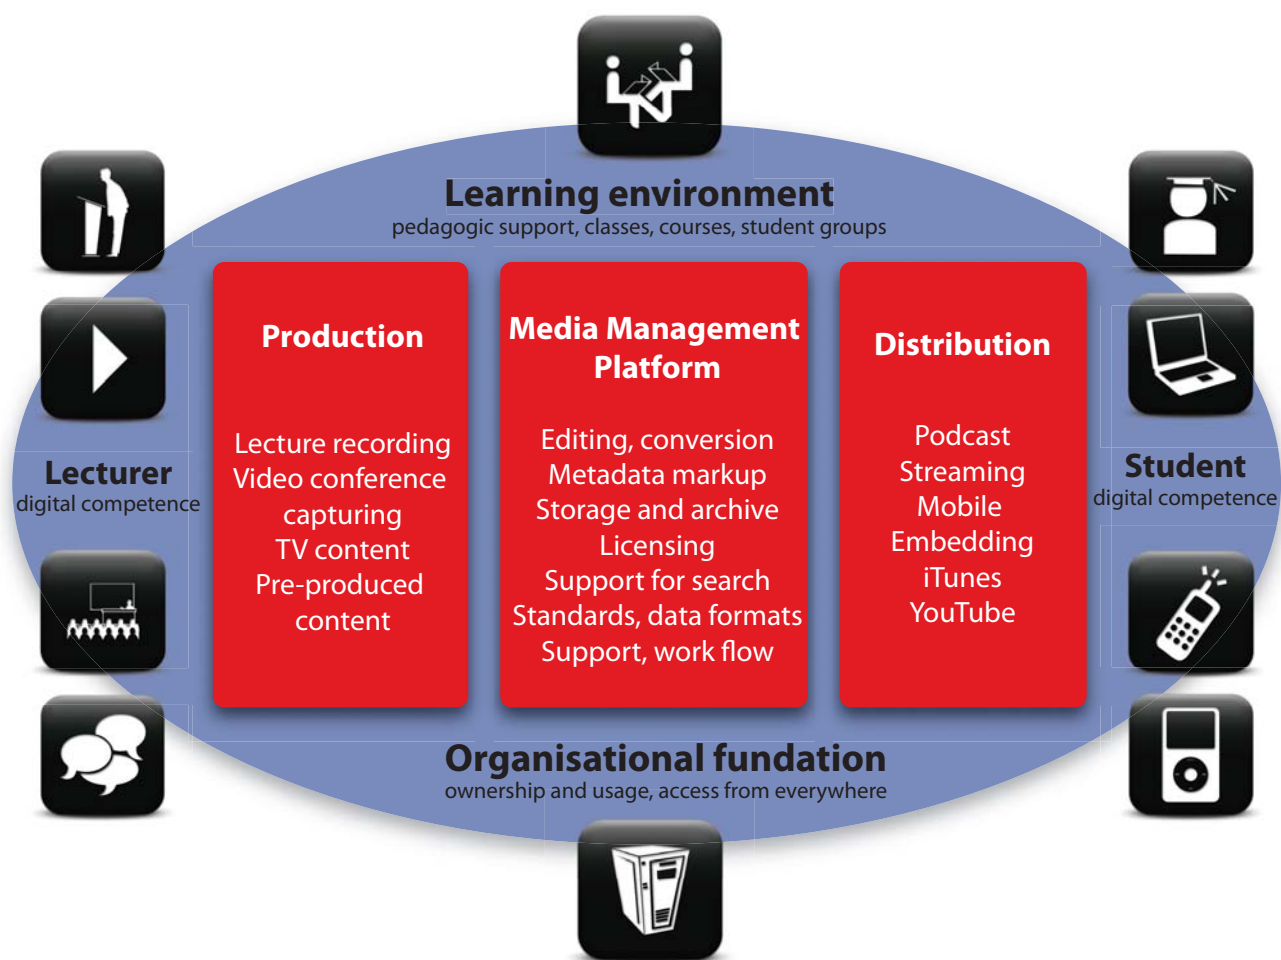

### OBJECTIVES

To collect ideas, knowledge and experiences about technical, administrative, and legal aspects of federated multimedia production, management and distribution services on a pan-European scale.

To explore the architectures, workflow processes and functionalities of different media management and distribution systems and services, as well as the possibility to federate media repositories (i.e., providing federated access and federated content) at the European level.

### CURRENT LIASONS

Europeana, Opencast Community, EUNIS

### MODULES OF A MEDIA MANAGEMENT PLATFORM

TF-MEDIA MANDATE  
2010-2012

CHAIRMAN  
Andy Zbinden (SWITCH) <andy.zbinden@switch.ch>

SECRETARY  
Peter Szegedi (TERENA) <szegedi@terena.org>

### WHAT IS TERENA?

TERENA is the association in which Europe's research networking organisations, research institutes, equipment vendors and telecommunications operators can meet, exchange information and experience, and collaborate on a range of activities.
