

The IRT-Object in the RIPE Database: short status update

Wilfried Wöber: ACOnet-CERT
for TF-CSIRT, 13th Meeting – Malta, MT
September 24, 2004

What happened since meeting 12?

- ? RIPE NCC is integrating our documents **now**
- ? Reference to PGP key object to become optional
- ? Request from Anti-Spam-WG to add (mandatory?) **abuse-c:** to the **irt:** object
- ? Some general ideas to return less (no?) email addresses on default query
- ? Open: verify functionality with reference to X.509 object
