

CERT Polska and CIIP in Poland

Mirosław Maj

miroslaw.maj@cert.pl

**TERENA TF-CSIRT meeting
Zurich, 12/05/05**

- **2002**

The cooperation between CERT Polska (CP) and IT Security Department of Polish Internal Security Agency (DBTI) has been established

SECURE 2002 conference – CIIP was a main subject

getting foreign experiences – Dutch model presented by Eric Luijff / TNO (big blackout in Amsterdam during the conference 😊)

CIIP Conference organized by CP

speakers and participants from many private and public keepers of CII

also further foreign experiences – British model presented by David Parker (UNIRAS) – London alive but our translators only just 😊

- **2003**

Dead season in terms of events, decisions

Permanent lobbying by DBTI and CP

Work on a bill about CIIP

- **2004**

DBTI has proposed the bill about CIIP

In July NASK/CP and DBTI signed agreement about cooperation on IT security field

In November Polish Prime Minister appointed governmental CIIP team to work out final conception

- inventory of CIIP (to avoid castles on the list)

- acceptance of ARAKIS-GOV < <http://arakis.cert.pl/> > as one of the most important systems in CIIP concept -> initial decision of developing ARAKIS-GOV as the research project (an official agreement is in a preparation)

- **National Bank of Poland**

 - Qualified incident handling service

 - Warning service

 - ARAKIS sensor in NBP network (monitoring by NBP and CP) – initial pixel in the picture of Polish CII security level

- **Other activities**

 - CP is recognized by governmental sector as the natural source of support in case of IT security initials

 - including close cooperation with national Police

 - CP provides consultations for governmental sector

THANKS
