Work Plan 2005

Academic and Research Network of Slovenia

⇒ Administration

- staffing, financial and logistical issues, ...

⇒ Awareness raising

- collect contacts & existing material
- establish network of contacts

⇒ Enhancing cooperation

- information sharing (WGs, PSG)
- cooperation on European initiatives

Co-operation on European initiatives

Academic and Research Network of Slovenia

The objective is to facilitate the co-operation of various European initiatives that contribute to reach a common superior level of security. This would include the possibility of working with CERTs to develop an understanding on how Enisa and the CERTs could benefit from co-operation, for example in promoting the creation of CERTs as well as other information sharing mechanisms and facilitating their creation in Member States and/or in sectors where they do not exist.
