- **Kudos to - ENISA for financial support, and:**
  - TERENA for allowing us to use the course material
  - Don Stikvoort for help with planning and finding trainers
  - the trainers for their contribution
  - KAV-IT for providing the course rooms
  - everyone involved in some way to make it a success!

## lessons learned

- pretty successful for a 1st attempt 😊
- not putting people into a „woods meeting“ environment has advantages *and* disadvantages
- general consensus: we have to follow up!
- pretty efficient for such a big(gish) group
- the law module needs more attention to take care of national specifics
- level of background info is quite diverse....

# thanks for your attention!
