

# EGI CSIRT Update

Michael Hausding - SWITCH  
TF-CSIRT Istanbul

- EGI – European Grid Infrastructure  
<http://egi.eu/>
- EGI-Inspire (Integrated Sustainable Pan-European Infrastructure for Researchers in Europe)  
<http://www.egi.eu/projects/egi-inspire/>
- EGI CSIRT  
[https://wiki.egi.eu/wiki/EGI\\_CSIRT:Main\\_Page](https://wiki.egi.eu/wiki/EGI_CSIRT:Main_Page)

- **Incident Response Task Force (IRTF)**  
Handle day to day operational security issues and coordinate Computer-Security-Incident-Response across the EGI infrastructure.
- **Security Drills Group (SDG)**  
Provide an overview of the various CSIRTs 'readiness' to react to an computer security incident and challenge the inter CSIRT communication channels.
- **Security Monitoring Group (SMG)**  
Develop, deploy and maintain security monitoring tools.
- **Training and Dissemination Group (TDG)**  
Raise security awareness and improve security for system administrators by providing security training and best practice

- Incident Response Taks Force
- Coordinator: Leif Nixon
- Members: Volunteers from more than 10 NGIs and NRENs
- Vulnerability assessment Group is part of IRTF

- Duty contact rotation
- Weekly handover (TC)
- Incident Reporting Procedures

- Regularly monitor vulnerability databases
- Assess impact of vulnerabilities on the EGI infrastructure
- Advise the project mitigation solutions

- Realistic incident simulation to test procedures, tools and communication
- Each site / NGI gets a score that is communicated inside the project

Thank you!
