

IODEF Development

- **What is it? (Incident Object Description and Exchange Format)**
- **History**
- **INCH is now a WG**
- **Requirements document revisited (Glenn Keeni, JPCERT/CC)**
- **datamodel doc: busy solving problems**
- **practical experience is needed!**
- **implementation: LIBIH (aircert, CERT/CC:
<http://aircert.sourceforge.net/>)**
- **much interest from APCERTF**
- **eCSIRT.net is going to give lots of input :)**

IODEF Pilot Project

- **Aim: further the development of IODEF and implement it between Ukerna and CERT-NL**
- **Problems: IODEF is NOT an exchange protocol, it's a format**
- **Making demonstrator: autoprobe-reporter a-la AusCERT**
- **Problem: IODEF not an exchange protocol**
