Child pornography

A sunset over a desert landscape with a large rock formation in the background. The sun is low on the horizon, casting a warm glow over the scene. The rock formation is dark and silhouetted against the bright sky.

First case in 1996.

Till now more than 400 cases.

Aproximatly 300 cases reported via Interpol to local police forces in more than 20 countries.

About 70% off all reported persons were found and prosecuted.

Child pornography

Action “**Purgatory 1**” taken in year 2001:

Broken chain of 51 person involved in distribution of child pornography.

Action “**Purgatory 2**” taken in year 2002:

Broken chain of 9 people involved in distribution of child pornography

What will future bring

At the least 50% of world trade will be on – line.

Aproximatly two billion users.

Large number of them will be mobile phone users

International paying system will be in use.

Fast increase of losts for companies working on the network.

Price of transportation and all goods will go down.

Next to come

New types of crime.

Suspects and victims will expand all round the world.

Number of international investigations will grow.

Economic losses will grow extremely fast.

Money laundering will move completely on the Internet.

Hope we'll be able to deal with it.

Questions?

And thanks for your attention !!
