

Abuse forum meeting @ Terena offices @ Amsterdam, April 16 2003

- Abuse vs. CSIRTs
- No difference in tasks, but in scaling
- What was felt to be needed:
 - Quick respons
 - Early warning
 - Exchange of experience and methods
 - Blacklist of customers
- Forum needed for daily problems, TF-CSIRT more strategic
- Issues:
 - legal (competition laws)
 - competitive (competitors != cooperation material)
- Why so little integration between CSIRTs and abuse-teams?
- UK abuse forum open to participation: <http://www.ispforum.net/>
