# URNReg

evolution of an idea

tf-emc<sup>2</sup> has seen the idea evolve from inception to deployment

tf-emc<sup>2</sup> has seen the idea evolve from inception to deployment

- URNs were exploding in our activities

tf-emc<sup>2</sup> has seen the idea evolve from inception to deployment

- URNs were exploding in our activities
- An idea was presented in 2006 in Malaga

# URNReg

evolution of an idea

tf-emc<sup>2</sup> has seen the idea evolve from inception to deployment

- URNs were exploding in our activities
- An idea was presented in 2006 in Malaga
- Candido volunteered to do an implementation

# URNReg

evolution of an idea

tf-emc<sup>2</sup> has seen the idea evolve from inception to deployment

- URNs were exploding in our activities
- An idea was presented in 2006 in Malaga
- Candido volunteered to do an implementation
- One year later working code was presented

tf-emc<sup>2</sup> has seen the idea evolve from inception to deployment

- URNs were exploding in our activities
- An idea was presented in 2006 in Malaga
- Candido volunteered to do an implementation
- One year later working code was presented
- This year eduGAIN became the pilot user

tf-emc<sup>2</sup> has seen the idea evolve from inception to deployment

- URNs were exploding in our activities
- An idea was presented in 2006 in Malaga
- Candido volunteered to do an implementation
- One year later working code was presented
- This year eduGAIN became the pilot user
- We have presented the idea in eChallenges

# URNReg

evolution must not rest

There is plenty of room for improvement

There is plenty of room for improvement

- The specifications document needs some polish

There is plenty of room for improvement

- The specifications document needs some polish  $\Rightarrow$  RFC?

There is plenty of room for improvement

- The specifications document needs some polish  $\Rightarrow$  RFC?
- More deployments (SCHAC)

There is plenty of room for improvement

- The specifications document needs some polish  $\Rightarrow$  RFC?
- More deployments (SCHAC)
- Apply the refinements derived from the use of the tool

# Collaborations

You learn while you teach, you teach while you learn

# Collaborations

You learn while you teach, you teach while you learn

There are others that can use our work whose work we can use

# Collaborations

You learn while you teach, you teach while you learn

the long and winding road

SCHAC has had a healthy childhood

# SCHAC

the long and winding road

SCHAC has had a healthy childhood

- Officially born in March 2005

# SCHAC

the long and winding road

SCHAC has had a healthy childhood

- Officially born in March 2005
- Mikael was the first to contribute to the list

## SCHAC has had a healthy childhood

- Officially born in March 2005
- Mikael was the first to contribute to the list
- Javi proposed the first beta of the schema on month later

## SCHAC has had a healthy childhood

- Officially born in March 2005
- Mikael was the first to contribute to the list
- Javi proposed the first beta of the schema on month later
- First version was a Christmas present (Dec 26th 2005)

## SCHAC has had a healthy childhood

- Officially born in March 2005
- Mikael was the first to contribute to the list
- Javi proposed the first beta of the schema on month later
- First version was a Christmas present (Dec 26th 2005)
- Present stable version was published at the start of 2007

## SCHAC has had a healthy childhood

- Officially born in March 2005
- Mikael was the first to contribute to the list
- Javi proposed the first beta of the schema on month later
- First version was a Christmas present (Dec 26th 2005)
- Present stable version was published at the start of 2007
- The schema, or parts of it, has been widely adopted

# SCHAC

there is room for development

We should not consider SCHAC as a finished work

# SCHAC

there is room for development

We should not consider SCHAC as a finished work

- Connections to student data ← RS<sup>3</sup>G

# SCHAC

there is room for development

We should not consider SCHAC as a finished work

- Connections to student data ← RS<sup>3</sup>G
- Some new use cases need new attributes ← WAYF.dk

# SCHAC

there is room for development

We should not consider SCHAC as a finished work

- Connections to student data ← RS<sup>3</sup>G
- Some new use cases need new attributes ← WAYF.dk
- The SCHAC URN RFC is ready for prime time

We should not consider SCHAC as a finished work

- Connections to student data ← RS<sup>3</sup>G
- Some new use cases need new attributes ← WAYF.dk
- The SCHAC URN RFC is ready for prime time
- Should SCHAC become a *real* European standard?
