
Reputation systems

Jaime Pérez <jaime.perez@rediris.es>

Status update

1. Several people seem interested in some use cases, mainly regarding reputation applied to **e-mail** and **spam** fighting.
2. We're working on the **IRISRBL** use case plus **web services**.
3. Collecting use-cases, please contribute!

Status update

1. Tried to contact people at OASIS ORMS with no response. Seems like the group is inactive.
2. We're outlining a flexible attribute authority
3. A new wiki is available to start collecting use cases and any other information:

`http://wiki.rediris.es/reputation`

How to access the wiki?

1. Available through **eduGAIN!**
2. Same access policy as the REFEDS wiki:
**mandatory mail and
eduPersonEntitlement** attributes.
