
Reputation systems

Jaime Pérez <jaime.perez@rediris.es>

One real use case right now:

* Reputation applied to **e-mail**.

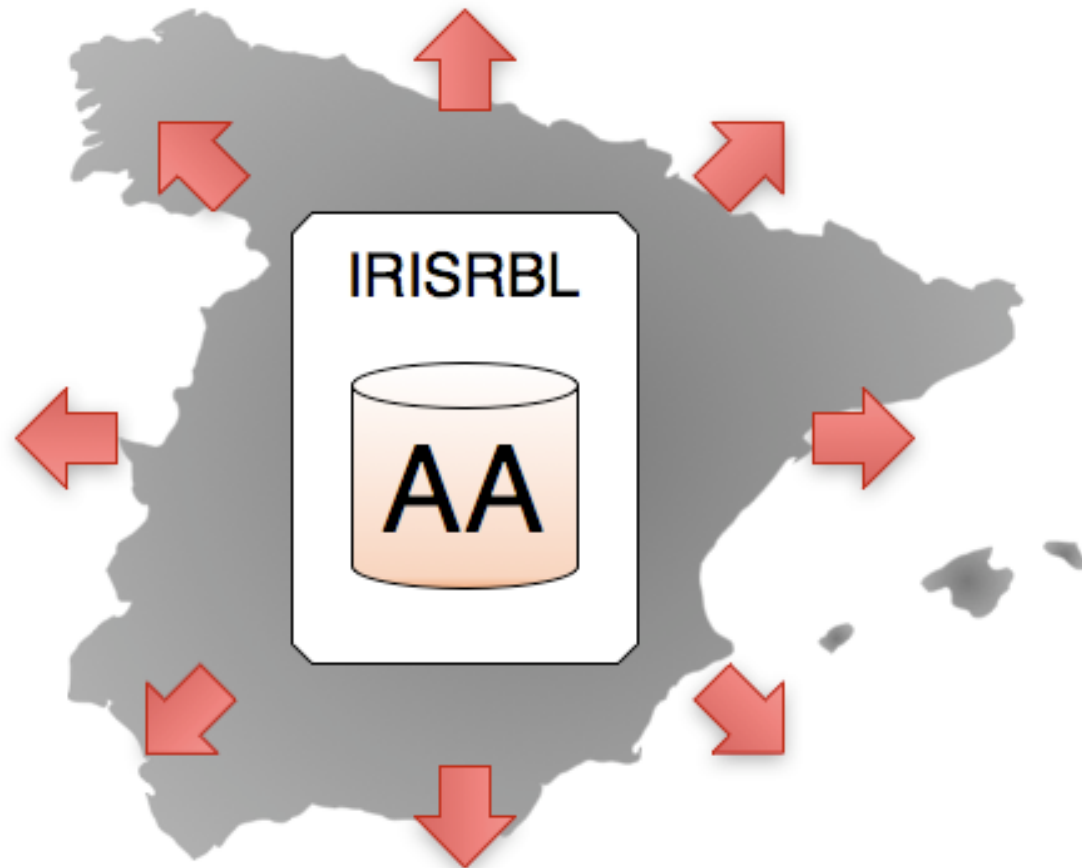

- Spam fighting! IRISRBL & IRISWL.
- RACE: e-mail quality testing & evaluation.
 - Applied to eduroam?
 - Applied to security?

Gathering interest: next meeting on *improving the quality of e-mail* in **Amsterdam, dec. 9th 2009**.

Working on it:

* IRISRBL + Attribute Authority to store and distribute the information.

Use cases wanted!

Please, contribute use cases to the wiki:

`http://wiki.rediris.es/reputation`

How to access the wiki?

- * **eduGAIN** enabled!
- * Same access policy as the REFEDS wiki:
mandatory mail and
eduPersonEntitlement attributes.
