

## News about...

- The CRU federation
- eduroam.fr
- SCS in France
- directory schema

# Federation news...

- Current members :
  - 27 IdPs
  - 18 SPs (including Elsevier and EBSCO)
- Future SPs :
  - Microsoft (MSDN-AA)
  - Ovid
  - Lexis Nexis
  - CRU own services (wiki, mailing list server, gforge)

# Federation news...

- Shibbolized applications :
  - Dokuwiki : authZ is based on Sympa ML membership
  - Gforge : only SubVersion could not be shibbolized
  - WebDav (work in progress) : carried by the ESUP consortium
- The CRU will do a workshop to help French universities to «shibbolize» applications

# Federation news...

- Shibboleth and MS Sharepoint
  - CRU interested in similar projects in other countries
- Work to «shibbolize» SAP
- Tests with Macrovision.com :
  - Provide access control management packages to academic publishers
  - RightAccess and RightCommerce softwares

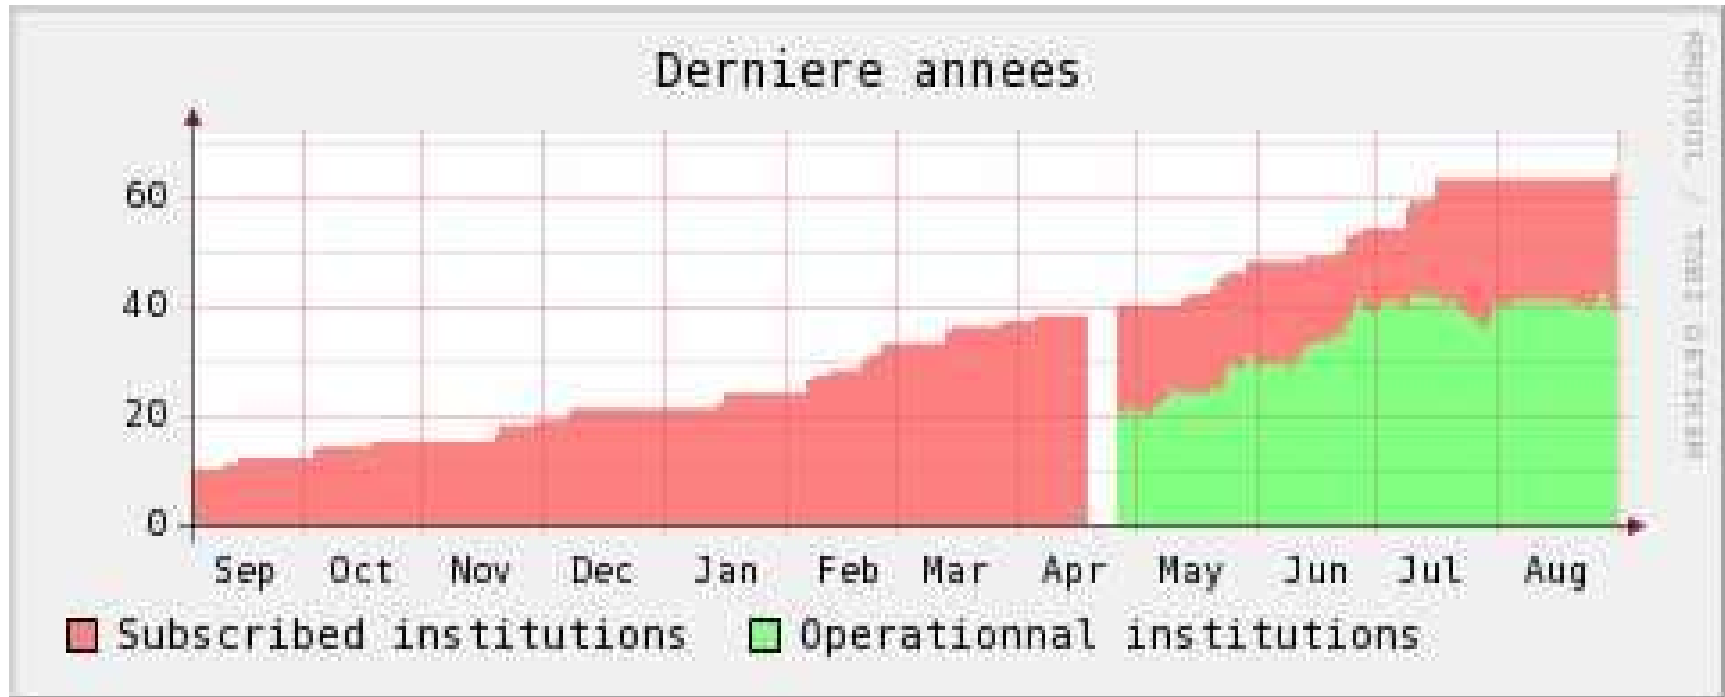

# Federation news...

- A «home for the homeless»
  - Required to use shibboleth for national services
  - We are about to open this service, operated by CRU
  - Includes a home-grown group management tool
  - This IdP will not be part of the «default» federation

# eduroam news...

synergies.modernisation.gouv.fr/

- 64 institutions provide the service

# SCS news...

- Statistics:
  - 115 universities have registered
  - 1143 delivered certificates (avg: 10.99)
  - 120 «wildcard» certificates (avg: 1.15)
  - 11 revoked certificates
- 
- The previous CRU PKI will close on 31/12/2007

## SCS news...

- CRU has developed a web interface aside SCS web interface :
  - For end-users to pre-validate cert requests
  - For operators to verify requests
- A first version has been distributed
  - No feedback yet...
- Next version will integrate with SCS interface
