

Reputation systems

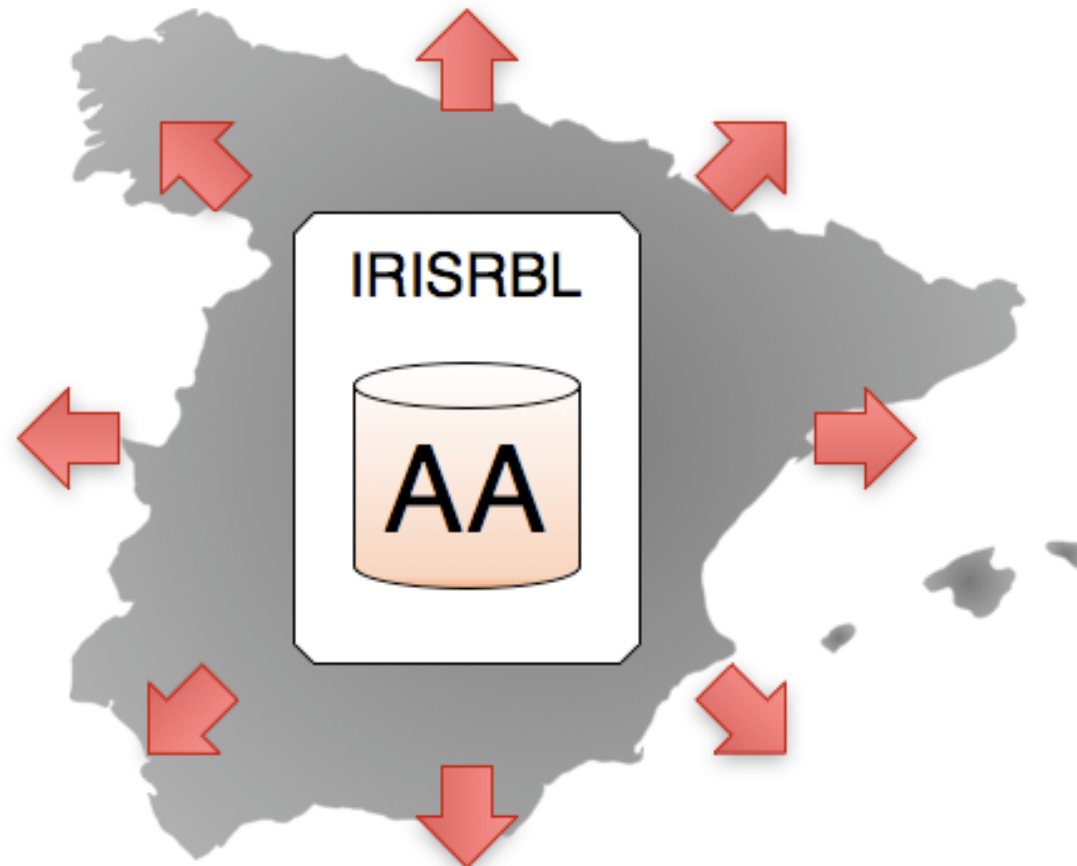

Jaime Pérez <jaime.perez@rediris.es>

- Work Item inside Task Force for European Middleware Collaboration & Coordination (**TF-EMC2**).
- Exploring general purpose applications of **reputation systems**.
- One clear and interesting use case: reputation applied to **e-mail**:
 - Spam fighting! Using reputation to build black and white lists.

Our main use case:

- IRISRBL + Attribute Authority to store and share reputation (black/white lists):

Please, join us!

`http://wiki.rediris.es/reputation`
`tf-emc2@terena.org`

How to access the wiki?

- * **eduGAIN** enabled! (anonymous read)
- * Write access policy is going to change, keep an eye on the EMC2 mailing list.
