Context of JRA2

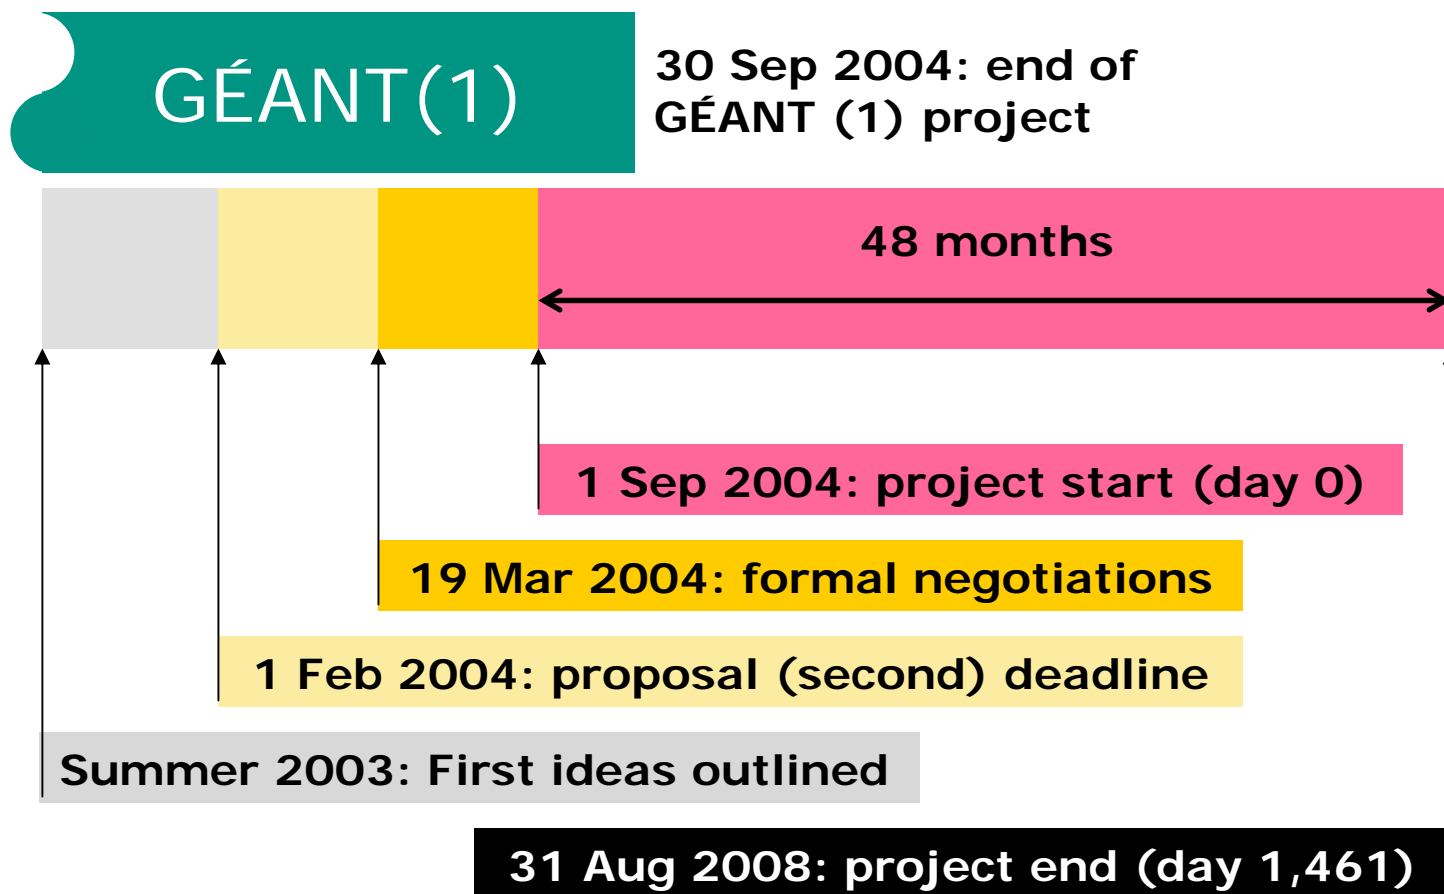

GEANT2 (in terms of manpower investment)

- Network Activities 25%
- Service Activities 27%
- **Joint Research Activities** 48% = 100%
 - JRA1: Measurement & Mgmt 25%
 - **JRA2: Security** 25%
 - JRA3: New Services Development 25%
 - JRA4: Technology & Service Testing 8%
 - JRA5: Ubiquity and Roaming Access 17%

JRA2 Activities

- Securing GN2 network elements and services
 - recommendations and policies for GN2 & NRENs
 - implementation on backbone and access links
- Building proactive security services
 - developing monitoring and detection toolset
 - deployment of eCSIRT.net results
- Proposition for a trust based community
 - incident handling
 - operational information exchange
 - recommendations for classification standards
- Linking with TF-CSIRT
- Establishment of Advisory Panel

GN2 (and JRA2) time line

Conclusions

- GN2: Ambitious pan-European project
- First deliverables (network) Q1/2005
- High profile for security issues in three dimensions:
 - technical and procedural
 - operational, tactical, strategic levels
 - proactive and reactive
- Promise: GN2 is secure to state of the art

Joint exercise (< Tomaž Kalin / DANTE)
