QoS monitoring and SLS auditing

Outline

- Possible relations...
- Understanding needs...
- Tools...
- Test experience to be organized...

Possible relations

- Internet2 End-to-End Performance Initiative
 - structure to help end users
 - <http://www.internet2.edu/e2eperf>
- Internet 2 Measurement Working Group
 - Perceived quality
 - Measurement grid
 - <http://www.internet2.edu/qos/wg/>
 - <http://www.internet2.edu/measurement/>

QoS monitoring and SLS auditing

Understanding needs

- Grids/games
- MPEG-4

Tools

- pchar, clink (pathchar)
- One way delay
- Chariot on RIPE TTM boxes
- Surveyor + Chariot?
- Chariot on web (ViDeNet Scout)
 - <http://www.cs.unc.edu/%7Eott/cavner/videnet/scout/>

Test experience to be organized

- IPSS
- OvNet
- AF based services
- Delay+jitter
