

NREN ↔ GRID-SEC

SWITCH

Serving Swiss Universities

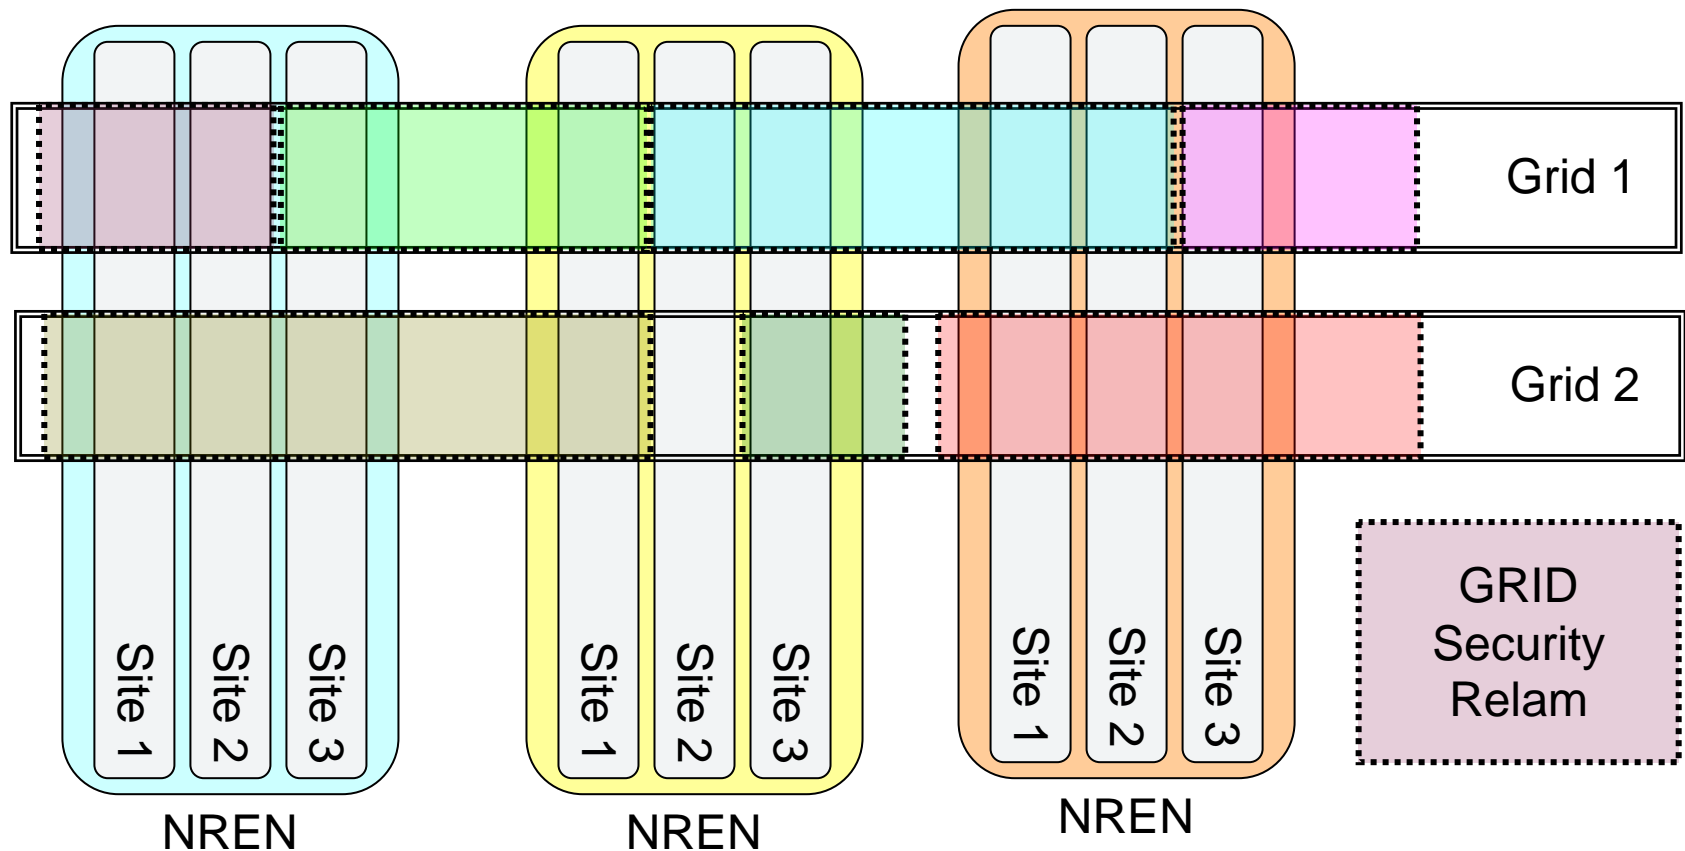

Leon, 19. May 2009

Dr. Serge Droz
serge.droz@switch.ch

Prelude

26th TF-CSIRT Meeting, Riga:

Discussions between NREN-CSIRTS and GRID-Security:

Collaboration

- First and foremost: Grid sites must collaborate with their Site-Security and should thus be integrated in the existing CSIRT network.
- A higher level collaboration between the NREN-Universe and the GRID-Universe is desirable

Grid Initiatives: GRID-SEC

QuickTime™ and a
decompressor
are needed to see this picture.

A coordinated response to cross-grid security incidents

- Modelled after nsp-sec
- Open to individual from Teams representing different grids
- Open to 2 (named) NREN-CSIRT-Rep
Proposed: DFN-CERT -> Torsten Voss
SWITCH-CERT -> Serge Droz

Proposed Future Steps

- Torsten Voss and myself get on grid-sec
- We report back to the community
