

The network of knowledge

Advancing Work Items

Lionel Ferette
Chair of TF-CSIRT

Evaluation of new tools

- **Little feedback - Wayne and Serge**
- **Would be only about more complex tools**
- **Well-known tools (ala nmap) could be presented as part of a workflow**
- **Link with the ClearingHouse?**

Drill Exercises

- **Lot more feedback, on- and offline**
- **GRID performs drills**
- **There should be a clear definition of 'what' would be tested**
 - **Emphasis on communication?**
- **GN3 SA2/T4 includes drills**
