AbuseHelper update

Christian Van Heurck
Security Analyst
CERT.be
Belnet CERT
status AH project @Belnet

full plan being developed and worked out

• concept
• development internal - external
• change output tools
• change customer interaction for Belnet CERT
• develop interaction for CERT.be

working on SQL-bot & API

• still use RTIR?
• statistical analysis
• sources -> attribute a weight
status AH project @Belnet

workshop @BruCON + lightning talk

- hands-on
- promote
- interact

workshop @Hack.lu

- hands-on
- promote
- interact (e.g. Alexandre Dulaunoy)
