CENTR Security Activities

Dublin, 2. June 2011

Dr. Serge Droz
serge.droz@switch.ch
Security Activities

• Registries are (in Europe) often heavily regulated

• Thus their Security-Understanding seems to follow similar lines: Mostly ISO 27001 et al.

• However, also CENTR realises that there is more to it

Conclusion: They do security too now
Activities

• Involvement with ITU: Response to ‘ITUs “First High-Level meeting on the Illicit Use of ICTs”

• Regular Security Meetings
  First one next week in Trondheim

*Personal take:*

  **Building a separate community is not what we want**
Next Steps

• What shall we as a community do?
