

5.5 Expenditure Categories

The graph below shows which percentage of NREN income is spent on which categories of expenditure.

This graph should be read in connection with table 3.6 (Network levels funded through the NREN).

Also, due to differences in NREN funding, for some NRENs all salaries are funded through the budget, for others they are not part of the NREN budget and for others it may be a mixture.

Graph 5.5
