NOC Flash talk collection

Poster by HEAnet (part)

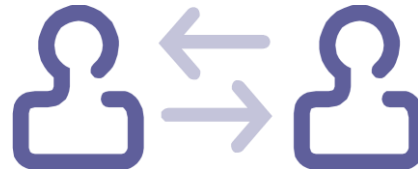

- › 54 questions about tools, taxonomy, services, communication,...
- › 36 complete answers
- › Results, report and tools matrix (functionalities & number of users):
<http://www.terena.org/activities/tf-noc/TF-NOC-Survey-Report-Final.pdf>

TF-NOC, a summary from 2010 to 2013

- › TF-NOC has been a useful way to:
 - › share information between members of the community
 - › collect how things are done inside the different types of NOCs
 - › discuss how to enhance them

- › But...the members of this community are extremely busy people dealing with the daily operations of their networks => Many of them cannot afford to invest the load of work that involves being an action leader or writing deliverables as expected from a Task Force.

A new mandate for TF-NOC

- › The work item leaders, acting as co-chairs, proposed to re-charter the Task Force for **18 months**.
- › The aim is to continue **sharing** and investigating within the spirit of **openness** and **collaboration**.
- › The new TF-NOC will be an open forum with a core team formed by 3 or 4 co-chairs with the support and under the auspices of TERENA.
- › Now the **Steering Committee** is formed by Maria Isabel Gandia (CESCA), Pieter Hanssens (Belnet), Jonny Lundin (NORDUnet), Brian Nisbet (HEAnet).
- › Light-weight Terms of Reference.
- › Possible migration into a SIG if the TERENA Technical Programme makes it possible.

A new mandate for TF-NOC

- › The Task Force will maintain:
 - › the mailing list (tf-noc@terena.org)
 - › the website (<http://www.terena.org/activities/tf-noc/>)
 - › the wiki (<https://confluence.terena.org/display/NOC/>)
- › The Task Force will organize 2 meetings per year.
- › The secretary, appointed by TERENA, will be responsible for taking the minutes at the 2 meetings, and for making logistical arrangements.
- › TF-NOC could also organize other small workshops or BoFs co-located with other meetings.

WELCOME TO THE NEW TF-NOC!!

Thanks for your attention!
